- Speakerphone and built-in answering machine that captions messages

There's no need to let hearing loss impact the connections that matter most in life. Whether it's with family, friends, business contacts or healthcare professionals, it's our ability to **connect, communicate and collaborate with others** that makes our lives whole. For people with hearing loss, a simple thing like a telephone conversation can become an obstacle. But with the right technology, that obstacle melts away, leaving meaningful connections that matter.

The Hamilton® CapTel® captioned telephone is the most advanced captioned phone available. It's possible to **listen and read captions of what's said over the phone** ensuring clarity on every call – eliminating the frustration even a simple phone call can make.

As someone with hearing loss, you are eligible to **receive a Hamilton CapTel phone at no cost.** Choose the Hamilton CapTel phone that's right for you, complete and submit the Order Form on the reverse side.

Hamilton CapTel Captioned Telephone Order Form HRA723DF

To receive your Hamilton® CapTel® phone at no cost, please provide the requested information below.

FEDERAL LAW PROHIBITS ANYONE BUT REGISTERED USERS WITH HEARING LOSS FROM USING INTERNET PROTOCOL (IP) CAPTIONED TELEPHONES WITH THE CAPTIONS TURNED ON. Advanced speech recognition software is used to process calls, and, in certain circumstances, a live communications assistant may be included on the call. There is a cost for each minute of captions generated, paid from a federally administered fund. To learn more, visit fcc.gov. CapTel is a registered trademark of Ultratec, Inc.
